

Basic Patient Handset

The Basic Patient Handset allows the patient's condition to be reported quickly to the hospital staff in an emergency situation.

- Easy to use
- Works through connection to bedside call unit
- LED back lights allow easy use in the dark
- LEDs stay lit when there is an active call until a nurse responds

Technical Specification

ZKRUNCIPHS10100

Weight	115 g
Width	45 mm
Depth	28 mm
Height	140 mm
Operating Temperature / Humidity	-10°C +60°C / % 30 %80 RH
Cable Length	1.5 Meter Spiral Cable
Raw Material	PC-ABS-FR
Back Light	LED
Connections	1xRJ45
Color	White
